

I believe that Airl and its radio listeners need to stay where they are at. By replacing any Airl radio station by a Low Power FM (LPFM) station would be devastating to any listener out there. Airl brings the truth about God's word to the public and everyone needs to know about how awesome God is. Christians are called to be lights of the world and that is what Airl is doing for so many people out there. By shutting down one of these stations more than one person would lose their job and some may never come to know God, and that is horrible. For the person that is reading this right now I just want to let you know that no matter what on earth you have done Jesus forgives you, He loves you no matter what mistakes you have made in your past. He wants you, yes you, to be with Him in eternity, is that not an awesome feeling. God is awesome. If you want to become a fellow believer just pray this simple prayer, Dear God, I know that I have sinned in the past and I know that I have made mistakes. I come to You right now and I ask for your forgiveness, thank you for forgiving me and having that much love to forgive me. Lord will you please come into my life right now and be with me and help me to become like you. Amen. If you prayed that prayer I encourage you to find a good church which believes that Jesus is Christ the Lord, and that will support your decision. If you know someone that is a believer share that you just became a new believer and that you want to know more about what God has in store for your life. You and many others will be in my prayers. Please keep Airl, every Airl station in business, please. Those stations mean so much to so many people. Thank you for reading this and God bless.
